

1239 Universal Fixed Pole

The 1239 Universal Fixed Pole supports a laser at a predetermined elevation above the invert. Use the 1239 with the 1228 Universal Adjustable Invert Plate, 1230/1237 Heavy Duty Invert Plates, or 1244 T-Bar Assembly.

Features:

- 1** Pole Clamp #1 – slides onto the vertical pole and is secured with the pole clamp's handle.
- 2** Top Pole Scale (TPS) – determines the distance between the top of the pole to the center of the laser beam.
- 3** Mounting Plate Scale (MPS) – determines the distance between the center of the laser beam and the bottom of the Model Mounting Plate. This scale is represented with down arrows next to the scale numbers.
